

Our Bosk engineered timber flooring adds warmth and character to your home.

Bosk Engineered Flooring in Ryrie

Bosk features a European Oak top layer that displays a beautiful grain pattern.

All boards are unique and will have colour, grain and feature variations. Stair nosing is available to enable continuity of floor covering throughout your build.

bosk
ENGINEERED FLOORING

BOSK

is available in two colours - Ryrie & Malop

A light-coloured coating and the European Oak grain is a prominent feature.

A rich, warm brown coloured coating which shows off the beautiful European Oak grain.

WHAT IS Bosk Engineered Flooring?

- It is a 189mm wide x 15mm thick, end matched tongue and groove floor system.
- It has a 4mm thick European Oak top layer.
- Boards are a maximum of 2.2m in length.
- The top layer is laminated to a very stable plywood substrate.
- 7 coat UV lacquer finish.

ASK US about our Installation service.

Bosk engineered flooring is imported by Barwon Timber. We have drawn on our 40 plus years of timber industry experience and construction industry feedback to find a product that complements how we build and will meet the performance and aesthetic expectations of our customers.
